

TEMIS Data Check

Process for data review for public providers beginning third quarter 2012

All records received/entered into the TEMIS database for the relevant incident date(s) will be evaluated for the following data elements:

1. Blank team member ID# (must have at least one documented)
2. Provider code documented as OT (all licensed providers in LA County have a designated 2-letter code)
3. Run Type Blank
4. Run Type documented as D (Dead On Arrival-DOA) and complaint not DO (Dead On arrival)
5. Run type documented as D and patient transported
6. Run type documented as D and patient received medications/defibrillation (if receive ALS treatment must be pronounced by Base)
7. Run type documented as P (Pronounced by Base) and no base contact documented
8. Run type R (Regular run: Not DOA/Pronounced by Base/Canceled at Scene/No Patient/IFT or Public Assist) and no complaint code documented
9. Run type R with Contact not documented (Should be a base hospital, PRO (protocol) or CNA (Contact Not Attempted) documented)
10. Run type R with complaint of DO documented (DO patients should be run type D)
11. Transport To (MAR, SRC, TC, etc) and Via (ALS, BLS or Heli) is present and No Receiving Hospital is documented
12. 12-Lead results are STEMI (S-T Elevation Myocardial Infarction) and patient not documented as going to SRC
13. Documented to SRC (STEMI Receiving Center) and no complaint of CA (Cardiac Arrest) or 12-lead result of STEMI
14. TE (Apparent Life Threatening Event complaint) and not documented as transported to PMC
15. TE complaint used on patient over one year of age
16. Complaint documented is trauma criteria (90/RR/SX/SC/PT/PH/14/PF/PN/PB/PC/FC/PA/BD/PB/PK/PX/PR/BR/PI/BI/BV/PV) or Mechanism Of Injury (MOI) is trauma criteria (EJ/12/18/PS/20/RT/15) and patient not transported to a trauma center
17. NeWborn (NW) complaint documented and transported to MAR
18. Newborn complaint documented and patient age is greater than 5 days
19. Adult (>14 years) transported to EDAP (Emergency Department Approved for Pediatrics) or PMC (Pediatric Medical Center)
20. Trauma complaint documented with no Mechanism Of Injury documented
21. AL (ALtered) complaint documented with no GCS (Glasgow Coma Scale) documented
22. CP (Chest Pain) complaint documented, patient equal to or greater than 35 years old and no 12-lead ECG result documented
23. LN (Local Neuro) complaint with no mLAPSS (modified Los Angeles Prehospital Stroke Screen) documented
24. No trauma complaint documented and transported to Trauma Center

- 25. Pediatric patient (≤ 14 years) and transported to MAR or Trans To blank with a receiving hospital documented
- 26. Pediatric patient equal to or less than 10 years old with no Pediatric Weight Color Code (PWCC) documented
- 27. PWCC used on a patient greater than 14 years of age
- 28. Medication administered that cannot be used with a protocol (Benadryl)
- 29. Medications given per 806.1 with no base contact documented (Base contact documented as CNA or Blank and medications administered)

SFTP Providers Only

- 30. Protocol 1210 (Cardiac Arrest) documented and no CA (Cardiac Arrest) complaint documented
- 31. Protocol 1243 (Altered Level of Consciousness) documented and no AL complaint documented
- 32. Protocol 1244 (Chest pain) documented and no CP complaint documented
- 33. Protocol 1247 (Overdose/Poisoning) documented and no OD (Overdose) or PO (Poisoning) complaint documented
- 34. Protocol 1249 (Respiratory distress) documented and no SB (Shortness of Breath) or RA (Respiratory Arrest) complaint documented
- 35. Protocol 1250 (Seizure) documented, patient is ≤ 14 years old or no SE (Seizure) complaint documented
- 36. Protocol 1252 (Syncope) documented and no SY (Syncope) complaint documented
- 37. Protocol 1261 (Emergency childbirth-Mother) documented and no LA or OB complaint documented
- 38. Protocol 1262 (Emergency childbirth- Newborn) documented and no NW complaint documented
- 39. Protocol 1264 (Pediatric Seizure) documented, patient is >14 years of age or no SE complaint documented
- 40. Protocol 1271 (Burns) documented and no BU (Burn) complaint documented
- 41. Protocol 1275 (General Trauma) documented and no trauma complaint documented
- 42. Protocol 1277 (Traumatic Arrest) documented and no BT (Blunt Traumatic arrest) or PT (Penetrating Traumatic arrest) complaint documented
